

T- GRID SUSPENSION SYSTEM

GRID CEILING SYSTEM

Description

Gypsemna T24 T-Grid Suspension System is a lightweight interlocking ceiling system with an exposed grid to support our range of Gypsemna Gypsum Ceiling Tiles. The combination of the pre-decorated white exposed grid and the white ceiling tile provides an aesthetic finish.

APPLICATIONS

Gypsemna T24 T-Grid Suspension System is the ideal system to be used in conjunction with our Gypsemna Gypsum Ceiling Tile range, where quick and easy access to any part of the false ceiling is required. The advantages are; lightweight, easy to install, attractive and aesthetic surface finish. Suitable for a multitude of sectors such as residential, commercial, healthcare, airports, cinemas and educational projects.

COMPONENTS

The Gypsemna T24 T-Grid Suspension System comprises of three main components, which are the Main Tee, the Cross Tee and the Perimeter Angle. These are manufactured from G.I Steel with a pre-decorated aluminum capping.

PACKAGING

The Gypsemna T24 T-Grid Suspension System components are individually packed in corrugated cardboard boxes and are supplied in the following quantities:

Component	Length	No.Pcs/Box
