

GYPSEMNA
SHADOW-LINE
STOPPING ANGLE
FIXING COMPONENTS
METAL PROFILES

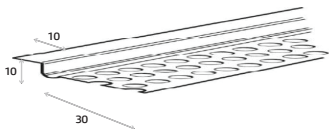

■ DESCRIPTION

The Shadow-line Stopping Angle is suitable for vertical, horizontal, and curved applications. Ideally suitable for use around ceiling perimeters, door jambs, windows and lift wells.

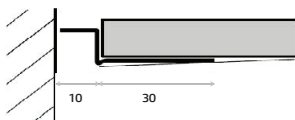

■ BASIC USES

The Gypsum Shadow-line Stopping Angle is applicable for Partition System & Ceiling System

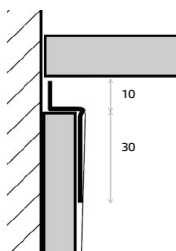

Sectional Profile

Typical wall Application

Typical wall Application

■ TECHNICAL DATA

PHYSICAL PROPERTIES

Coating	Galvanized Iron (GI)
Standard Compliance	ASTM A653/A653M
Material	Galvanized Iron(GI)
Steel Grade	G300Min. Yield Strength: 300 Mpa Min. Tensile Strength: 340 Mpa
Lenght	3000 mm

■ PERFORMANCE DATA

Size	Dimension (mm)	Lenght (mm)	Tgickness (mm)
P 50	10*10*30	3000	0.46
